

## One of the famous citrus-land in Japan becomes the most exciting place for all of the marmalade makers in the world !!

Ehime Prefecture is well known as one of the leading citrus producing areas in Japan. And Yawatahama area produces more than half of the citrus in Ehime Prefecture. More than 40 varieties of citrus we produce, we are sure that you will find the best citrus for the masterpiece of your marmalade. Since we held the 1st Marmalade Awards and Festival in 2019, we are spreading the wonderful culture and taste of marmalade and the joy of marmalade making. We are hoping to make this Awards and Festival is not only for marmalade contest, but also be a place to encourage regional development and international exchange.

## Core Aims

Our passion to hold and spread this magnificent event in Japan is based on the Core Aims of The Dalemmain World Original Marmalade Awards and Festival in England. We promise that we will work hard for "Education" "Community" "Raising Money for Charity" and "Enjoyment". In keeping with this philosophy, all of the entry fees for the amateur division are donated to charity.
